

California School Climate Survey

Alpaugh Unified
2008-2009
Main Report

This report was prepared for the district by WestEd, a research, development, and service agency, in collaboration with Duerr Evaluation Resources, under contract from the California Department of Education, Safe and Healthy Kids Program Office. For contract information, contact:

Hilva Chan

[District/COE Name]. *California School Climate Survey, 2008-09. Main Report*. San Francisco: WestEd Health and Human Development Program for the California Department of Education.

PREFACE

This report provides the detailed results for each question in the district's 2008-09 administration of the *California School Climate Survey* (CSCS) to teachers, administrators, and other school staff, presented in tables organized by topic. To help in understanding and interpreting these results, the ***CSCS Survey Content Guidebook*** provides a detailed explanation of each question and its significance (why it was asked) and the potential implications of the results. It can be downloaded from the survey website: cscs.wested.org.

The CSCS, along with its companion *California Healthy Kids Survey*, administered at the same time to students, is a service of the California Department of Education (CDE). For additional information and resources, visit the survey websites: chks.wested.org and cscs.wested.org.

SURVEY PURPOSE

The CHKS and CSCS form the largest, most comprehensive effort in the nation to assess *local* students and staff on a regular basis to provide key data on learning barriers, engagement, and supports. The CSCS was developed by WestEd in 2004 for the CDE Safe and Healthy Kids Program Office to fulfill the requirement in the *No Child Left Behind Act* (NCLB) of 2001 Title IV that schools conduct an anonymous teacher survey related to student drug use and violence. Recognizing the opportunity this requirement presented, CDE expanded the content to collect data to guide school improvement efforts in general, and also made it possible for districts to add questions of their own choosing so that the survey could better meet local data needs. Because the results are anonymous and confidential, the survey provides staff with an opportunity to communicate honestly their perceptions about the school without repercussions. The data are provided to districts to guide their own efforts to improve schools and better meet the needs of students and staff.

The CSCS (as well as the CHKS) grew out of CDE's commitment to helping schools promote the successful cognitive, social, and emotional development of all students. Equally of concern is fostering positive school working environments, particularly to help address the growing problem of teacher retention. The CSCS report provides a perspective on the degree to which staff perceive their schools have safe, supportive, caring, collegial, challenging, and engaging learning and working environments with norms and standards that encourage academic success. Taken as a whole, the survey questions map to the three pillars emphasized by many school reform efforts — Rigor, Relevance, and Relationships. In conjunction with CHKS student data, the CSCS enriches a school's ability to create a positive school climate that promotes quality teaching, school connectedness and academic achievement, and well-being among both students and staff.

Closing the Achievement Gap

In 2008-09, questions were added to provide better data to advance the efforts of schools to close the state's persistent racial/ethnic achievement gap (the CTAG Initiative). These questions, reported in Section IV assess the respect shown to students, equity and diversity, and cultural sensitivity.

Comparison with CHKS Results

Another broad goal was to provide data from school staff comparable to student self-report information from the CHKS, so that districts can ascertain whether staff perceptions accurately reflect student behaviors and experiences. The *CSCS Guidebook to the Survey Questions* provides a crosswalk between CSCS and CHKS questions and discusses how they might be compared.

SURVEY CONTENT OVERVIEW

The questions were selected with the assistance of an advisory committee to assess the key school climate variables that research and theory indicated are most associated with successful learning and teaching. Like most school climate surveys, it focuses on individual behaviors; patterns of communication and interactions; and professional and student supports. For a detailed discussion of the significance of each question, see the *CSCS Survey Content Guidebook*.

Questions are divided into three modules. The first Core section is answered by all staff. Two additional modules target staff with responsibilities for *learning supports* and *special education*. These group-specific modules ask for more program- and issue-specific information that might not be known to other staff. Keep in mind that these two modules are answered only by sub-samples of all respondents. Tables 8.1 and 9.1 provide the number of staff who completed each of these modules.

Core Survey (Section 1)

All staff answer the questions in the first part of the survey. It provides background information about the characteristics of the staff respondents that completed the survey (Tables 1.1-1.6), and assesses the following domains:

- How supportive and inviting is the learning and working environment in general (Tables 2.1 and 2.6);
- School norms and standards that promote achievement, including the rigor and relevance of instruction, shared sense of responsibility for school improvement, (Tables 2.2-2.5, 2.7);
- Supports, professional respect, and collegiality within the working environment, factors that surveys of California teachers has shown to be key to teacher retention, as well as facilities maintenance and parent involvement (Tables 2.5-2.10, 2.19-2.20);
- Staff and student safety (Tables 2.17-2.18);
- Student developmental supports — caring staff-student relationships, high expectations, and opportunities for meaningful participation and decision making— in the school environment that resilience research has linked to school (and life) success (Tables 3.1-3.10);
- Equity, respect, and cultural sensitivity, particularly germane for closing the achievement gap (4.1-4.13);
- Student behaviors that facilitate learning, including the degree to which students are ready and motivated to learn and are well-behaved (Tables 5.1-5.8);
- The level of problems the school experiences related to fourteen student behaviors or conditions (e.g., truancy, violence, bullying, substance use, mental health, and physical health) (Tables 6.1-6.8);
- The nature, communication, and enforcement of discipline-related rules/policies (Tables 7.1-7.5); and
- Staff professional development needs (Tables 2.12-16; 3.10, 4.10-4.13).

Learning Supports Module (LSM)

The Learning Supports Module (Tables 8.1-8.24) consists of 23 questions that are answered only by “practitioners” who provide services or instruction related to health, prevention, discipline, safety, or counseling. These questions assess the level of student programs, supports, services, and teacher professional development. The results can be compared to the level of student need as indicated by staff perceptions of problems (from the first section of the CSCS) and student report (from the CHKS).

Special Education Supports Module (SESM)

The Special Education Supports Module (Tables 9.1-9.25) consists of 24 questions designed to be answered only by staff who have responsibilities for teaching or providing related support services to students with Individualized Education Programs (IEPs). It provides data to better understand issues involving: (1) effectively meeting the needs of student with IEPs; and (2) recruiting and retaining special education staff. The CDE Division of Special Education is providing special reports to districts that compare all the CSCS results as reported by staff with special education responsibilities versus other staff.

SURVEY ADMINISTRATION AND SAMPLE

The CSCS is an online survey administered in the same schools at the same time as the CHKS among all staff in grades 5 and above.¹ Schools administered the survey following detailed instructions provided by CDE. Staff participation was totally voluntary, anonymous, and confidential. The tables in Section 1 (Sample Characteristics) provide the number of respondents who completed the survey, their roles at the school (e.g., teacher, administrator, counselor), length of employment at the school and in their position, and their race/ethnicity.

THE REPORT

Districts receive their survey results in two forms. If administered online, they first receive the results immediately over the Internet, as bar charts in question order. In this form, results for each school category (elementary, middle, high school) must be viewed separately. The enclosed Main Report consists of tables organized by topic in which results are presented side-by-side for the three traditional school types — elementary (grades 1-6), middle (grades 7-8), and high schools (grades 9-12) — as well as for continuation schools (ungraded, with 16 years being the earliest age of admittance).² The tables are especially useful for examining differences in school climate perceptions between the major types of schools.

The Tables provide the percentages of staff overall in the district responding to each response option for each question by grade level, organized into nine topical sections, as outlined in the Table of Contents. Percentages are rounded off to the nearest whole number. Summary tables at the beginning of the report (identified by the letter “S” before the table number), provide key indicators in each area and group the data together for a quick overview. For each key finding in a summary table a reference is provided to the table where the detailed results can be found.

Depending on the nature of the districts' enrollment and module administration it may also receive several supplemental CHKS reports. All districts that participate in the CSCS will receive reports that break down their CSCS results reported by special education staff compared to general education. In addition, districts that participate in CDE's Migrant Education Program (MEP) are qualified to receive reports that compare CHKS results as well as CSCS for students/staff that participate in the MEP versus those that do not participate. As noted, if the district also elected to administer the supplementary CHKS “CTAG” module, it will also receive all CHKS and CSCS results broken down by racial/ethnic categories of students and staff. CSCS reports that compare results between special education staff and general education are also being provided.

¹ In some instances, the survey is also administered on paper.

² For reporting purposes, K-8 schools are coded as elementary.

AIDS TO UNDERSTANDING AND USING THE DATA

In addition to the *CSCS Survey Content Guidebook*, there are several other guides, workshops, and other aids to help you understand and use survey results. These are described and made available on the survey website. Two are particularly important.

- The CHKS *Data Use and Dissemination Guidebook* describes a step-by-step process for reviewing, analyzing, and disseminating your results as part of a data-driven decision making process for program improvement. Free call-in data use workshops for the CSCS are offered as well.
- A *Workbook on Improving School Climate and Closing the Achievement Gap* provides a practical guide to using the data in the framework of improving academic achievement and well-being among all students and closing the achievement gap. It provides examples of how to use the data to improve practice and policy within a special education program. A workshop accompanying this Workbook will be available in 2010.

ASSESSING THE DATA

Care must be taken to fully understand the survey, the context within which the data were collected, and the factors that can impact the quality, validity, and generalizability of the results. The following are a few of the key issues that should be kept in mind. A detailed discussion occurs in the *CHKS Data Use and Dissemination Guidebook*.

Representativeness

Among the most important factors affecting the quality of survey results is the level of staff participation. The validity and representativeness of the results will be adversely affected if the staff response rate is lower than 60%. One indication of the survey's representativeness is how accurately the characteristics of the sample (see Section 1) reflect the characteristics of the district's staff as indicated by personnel records. Even if the response rate is low, the results provide an indication of what those staff who did respond felt about the school and their experiences and behavior. Discussed below are strategies for increasing participation.

Changes Between Surveys

Many factors may account for changes in results from administration to administration besides real changes in behavior, attitudes, or experiences among staff. A change could be due to differences over time in the characteristics or size of the sample who completed the survey, or changes in the questions, or differences in the time period in which the survey was administered.

Comparison Data: Statewide Results

Comparing district results to other CSCS local, county, and state data provides a broader context with which to assess the local situation. They can help you determine whether local changes are unique or may be part of a broader trend in the state. Ultimately, however, your most fundamental concern should not be how you compare to others but your satisfaction with your own survey results and whether your positive school-climate indicators are improving. Results from all districts in the state that conducted the CSCS in the two years of 2004-06 are reported by Austin and Bailey (2008) and may be downloaded from the CSCS website: cscs.wested.org.

IMPROVING PARTICIPATION

The *CSCS Survey Administration Guidebook* provides strategies for improving voluntary staff participation, but one of the most important is raising awareness among staff of the value of the survey to the school and the value of staff perceptions to the district. To that end, it is important that staff are informed about the results and any school-improvement efforts the district is undertaken in response. As

discussed below, it is also important to discuss the results and what should be done with them. *Staff must perceive that their voice is heard and valued.*

NEXT STEPS

Receiving this report is a beginning step in the process of using data to improve school climate. The following describes further actions that you can take.

Request School Reports

If the schools in the district vary significantly in demographics, programs, or other characteristics, consider requesting individual reports for each school (a fee applies).

Compare with Other Data Sources

CSCS results will be enriched if analyzed in the context of data from the California Healthy Kids Survey and other sources, particularly in identifying consistent patterns or disconnects that need to be further explored. Other data typically collected in effectiveness studies of school climate include number and kinds of discipline referrals, school demographic information, school vandalism costs, and behavioral observations in classrooms.

Discuss with Students and Staff

Discuss the results with both students and staff to explore their meaning in more depth and obtain their input into how the school might better meet the needs identified. This is especially important because it communicates to staff that you value their input and may help improve participation in the next survey. Survey staff can provide information on conducting structured group “listening” discussions of the data with youth focused on obtaining their input on how to address the needs identified by the survey.

Conduct Additional Analyses of The Dataset

The complete dataset is available electronically for additional analysis (there is a small fee for preparation). The dataset enables analyses of patterns in the results, how they are interrelated, and how they vary by different subgroups of staff and across schools within the district.

Add Questions to Your Next Surveys

Determine what additional information is needed from staff to guide school improvement efforts and add questions to your next CSCS or CHKS. Both surveys were designed so that schools can add additional questions to help them conduct a more individualized and comprehensive assessment.

ACKNOWLEDGEMENTS

The CSCS was developed, and this report prepared for the district, by WestEd in collaboration with Duerr Evaluation Resources, under contract from the California Department of Education (CDE). For more survey information, call the toll-free helpline at 888.841.7536, or visit the website at <http://www.wested.org/cscs>.

Gregory Austin, Ph.D.
CHKS/CSCS Director, WestEd

Positive Learning and Working Environment

This school...	<i>Percent Strongly Agreeing</i>	
	TD	%
Learning Environment		
Is a supportive and inviting place for students to learn (T2.1)	29	
Sets high standards for academic performance for all (T2.2)	43	
Promotes academic success for all students (T2.3)	43	
Encourage students to enroll in rigorous course (T4.9)	0	
Emphasizes teaching lessons in ways relevant to students (T2.5)	43	
Working Environment		
Is a supportive and inviting place for staff to work (T2.6)	29	
Promotes trust and collegiality among staff (T2.9)	29	
Provides the materials, resources, and training to do job effectively (T2.11)	0	
Provides the materials, resources, and training to work with special education (IEP) students (T2.15)	0	
Safety, Facilities, and Parental Outreach		
Is a safe place for students (T2.17)	14	
Is a safe place for staff (T2.18)	14	
Has clean and well-maintained facilities and property (T2.19)	0	
Is welcoming to and facilitates parent involvement (T2.20)	29	

Key: TD=Total District, ES=Elementary, MS=Middle, HS=High, NT=Continuation/Community Day/Alternative

Table S2
Staff Collegiality and Sense of Mission

How many adults at this school...	<i>Percent Selecting 'Nearly All Adults'</i>	
	TD	%
Have close professional relationships with one another (T2.10)	14	
Support and treat each other with respect (T2.8)	14	
Feel a responsibility to improve the school (T2.7)	14	

Table S3
Opportunities for Meaningful Student Participation (Student Developmental Supports)

This school provides/encourages students...	<i>Percent Strongly Agreeing</i>	
	TD	%
Opportunities to decide things (T3.6)	14	
Equal opportunity for classroom participation (T3.7)	43	
Opportunities to "make a difference" (help others) (T3.9)	0	
Equal opportunity to participate in extracurricular and enrichment activities (T3.8)	0

Clearly communicates to students consequences of breaking rules (T7.1)	29	
Handles discipline problems fairly (T7.2)	14	
Provides adequate counseling and support services for students (T7.5)	0	

Key: TD=Total District, ES=Elementary, MS=Middle, HS=High, NT=Continuation/Community Day/Alternative

Table S9
Professional Development Needs

Perceive need for more PD in...	TD %
Instruction & School Environment	
Meeting academic standards (T2.12)	57
Evidence-based methods of instruction (T2.13)	67
Positive behavioral support and classroom management (T7.4)	57
Creating a positive school climate (T2.14)	57
Addressing Needs of Diverse Populations	
Working with diverse racial, ethnic, or cultural groups (T4.11)	57
Culturally relevant pedagogy for the school's student population (T4.12)	43
Serving English language learners (T4.13)	43
Closing the achievement gap (T4.10)	57
Providing Support Services	
Serving special education (IEP) students (T2.16)	71
Meeting the social, emotional, and developmental needs of youth (e.g., resilience promotion) (T3.10)	71

Key: TD=Total District, ES=Elementary, MS=Middle, HS=High, NT=Continuation/Community Day/Alternative

Table S10**Implementation of Learning Supports (Health, Safety, and Discipline)**

This school...	<i>Percent Strongly Agreeing</i>	
	TD	%
Discipline and Safety		
Has sufficient resources to create a safe campus (T8.17)	0	
Seeks to maintain a secure campus through such means as metal detectors, security guards, or personal searches (T8.18)	0	
Collaborates well with law enforcement organizations (T8.13)	33	
Punishes first-time violations of alcohol or other drug policies by at least an out-of-school suspension (T8.14)	67	
Enforces zero tolerance policies (T8.15)	0	
Considers sanctions for student violation of rules/policies on case-by-case basis with a wide range of options (T8.12)	33	
Effectively handles student discipline and behavioral problems (T8.16)	0	
Substance Use		
Considers substance abuse prevention an important goal (T8.21)	33	
Has sufficient resources to address substance use prevention needs (T8.24)	0	
Provides effective confidential support and referral services for students needing help due to substance abuse, violence, or other problems (e.g., a Student Assistance Program) (T8.2)	0	
Collaborates well with community organizations to address substance use or other problems (T8.3)	0	
Youth Development and Health		
Provides adequate health services for students (T8.7)	0	
Provides healthy food choices for students (T8.8)	0	
Emphasizes helping students with their social, emotional, and behavioral problems (T8.4)	0	

Key: TD=Total District, ES=Elementary, MS=Middle, HS=High, NT=Continuation/Community Day/Alternative

Table S11***Level of Student Services Provided (Learning Supports Module)***

To what extent does this school...	<i>Percent Selecting "A Lot"</i>	
	TD	%
Provide services for students with disabilities or other special needs (T8.11)	33	
Foster youth development, resilience, or asset promotion (T8.5)	0	
Provide opportunities for physical education and activity (T8.10)	100	
Provide conflict resolution or behavior management instruction (T8.20)	0	
Provide character education (T8.6)	0	
Provides alcohol or drug use prevention instruction (T8.22)	0	
Provide tobacco use prevention instruction (T8.23)	0	
Provide harassment or bullying prevention (T8.19)	0	
Provide nutritional instruction (T8.9)	0	

Key: TD=Total District, ES=Elementary, MS=Middle, HS=High, NT=Continuation/Community Day/Alternative

Table S12***Special Education Services and Supports (Special Education Supports Module)***

This school...	<i>Percent Strongly Agreeing</i>
	TD %
Barriers to Effective Service Delivery	
Works to reduce instructional interruptions (T9.6)	
Works to minimize paperwork (T9.7)	
Effectively schedules mandated activities (T9.8)	
Integration and Collaboration Special-General Education	
Integrates special education into daily operations (T9.9)	
Encourages general and special ed teaming (T9.10)	
Provides sufficient time to collaborate on service delivery (T9.11)	
Views services to students with IEPs as a shared staff responsibility (T9.12)	
Promotes participation in school decision making (T9.13)	
Student Expectations and Supports	
Sets high expectations for students with IEPs (T9.14)	
Supports culturally and linguistically diverse students with IEPs (T9.15)	
Supports alternative modes of communication (T9.16)	
Provides complete state adopted instructional materials for students with IEPs (T9.17)	
Provides sufficient resources for special ed programs and services (T9.18)	
Personnel Supports	
Provides positive working environment (T9.19)	
Acknowledges responsibilities of staff serving students with IEPs (T9.20)	
Provides relevant paraprofessional training (T9.21)	
Has a climate that encourages continued service (T9.22)	
Provides adequate access to technology (T9.23)	
Has good communication with personnel to support students with IEPs (T9.24)	
Offers adequate compensation to support continued employment (T9.25)
