PREFACE

NEW THIS YEAR

The list of content sections and table names at the beginning of the digital report have been hyperlinked to the tables. Click on the title of a content section or a table and you will be automatically directed to the actual content section or table in the report.

This report provides the detailed results provided by teachers, administrators, and other school staff on each question in your 2014-15 administration of the *California School Climate Survey* (CSCS), presented in tables organized by topic. In 2013-14, the content of the survey was significantly revised to enhance the value of its data for guiding the Local Control and Accountability Plan (LCAP) process, particularly in regard to the state priorities of enhancing school climate, pupil engagement, and parent involvement.

The CSCS, along with its companion student and parent surveys—the *California Healthy Kids Survey* (CHKS) and the *California School Parent Survey* (CSPS)—is a service of the California Department of Education (CDE). These three surveys form the *California School Climate, Health, and Learning Survey* (Cal-SCHLS) System, the largest, most comprehensive effort in the nation to assess students, staff, and parents at the *local* level on a regular basis to provide key data on school climate and culture, learning supports and barriers, and stakeholder engagement, as well as youth development, health, and well-being. For additional information and resources, visit the survey websites: cscs.wested.org and cal-schls.wested.org.

SURVEY PURPOSE

The CSCS was developed for CDE by WestEd in 2004, to fulfill the requirement in the *No Child Left Behind Act* of 2001, Title IV, that schools conduct an anonymous teacher survey related to student drug use and violence. Recognizing the opportunity this requirement presented over time, CDE has expanded the content to collect other data to guide school improvement efforts and to meet LCAP state priorities. Schools can also add questions of their own choosing to meet other local data needs. Because the results are anonymous and confidential, the survey provides staff with an opportunity to honestly communicate their perceptions about the school.

The CSCS grew out of CDE's commitment to: (1) helping schools promote the successful cognitive, social, and emotional development of all students; and (2) fostering positive school working environments, particularly to help address the growing problem of low teacher retention. This CSCS report provides perspective on the degree to which staff perceive that their school has a learning and working environment that is safe, supportive, caring, collegial, challenging, and engaging, with norms and standards that encourage academic success. In conjunction with CHKS student data, CSCS data enrich a school's ability to create a positive school climate that promotes quality teaching, school connectedness, academic achievement, and overall well-being among both students and staff.

Local Control and Accountability Plan Support

The CSCS (and Cal-SCHLS overall) is especially valuable for meeting four of the eight state LCAP priorities: *improving academic achievement, school climate, pupil engagement*, and *parent involvement*. It also provides data to determine whether a school fosters the supports, conditions, and specific competencies needed to meet a fifth priority: meeting Common Cores State Standards. For more information, see Helpful Resources for Local Control and Accountability Plans and School Safety Plans, available at cal-schls.wested.org/resources/LCAP_Cal_SCHLS.pdf.

Closing the Achievement Gap

Several questions specifically provide better data to advance efforts to close the state's persistent racial/ethnic achievement gap. These questions include assessment of respect shown to students, equity and diversity, and cultural sensitivity.

Comparison with CHKS Results

Another broad CSCS goal is to provide data from school staff that are comparable to student self-report information from the CHKS, to ascertain whether staff perceptions accurately reflect student behaviors and experiences. The *Guidebook to the California School Climate Survey Part II: Survey Content* (cscs.wested.org/resources/cscs_guidebook_2_content.pdf) discusses how the CSCS and CHKS surveys might be compared, and an item crosswalk is posted on the website.[1] To enhance both survey administration efficiency and data comparability, schools are encouraged to administer the surveys at the same time.

SURVEY ADMINISTRATION AND SAMPLE

Schools are provided with detailed survey planning and administration instructions (see the *Guidebook to the California School Climate Survey Part I: Administration, 2011-12 Edition* available at *cscs.wested.org/resources/cscs_guidebook_1_admin.pdf*). CDE guidelines call for the CSCS to be administered online at the same time as the CHKS, among all staff in grades 5 and above.[2] Staff participation is totally voluntary, anonymous, and confidential. The tables in the Survey Sample and Demographics sections of this report provide the numbers of respondents who completed the core module; their roles at the school (e.g., teacher, administrator, counselor); the length of their employment at the school and in their positions; and their races/ethnicities. The number of respondents who completed each additional module is also provided at the beginning of the set of tables for that module.

SURVEY CONTENT OVERVIEW

The survey questions were selected with the assistance of an advisory committee to assess the key school climate variables that research and theory indicated are most associated with successful learning and teaching. Like most school climate surveys, it focuses on individual behaviors; patterns of communication and interactions; and professional and student supports. For a detailed discussion of the significance of each question, see the *Guidebook to the California School Climate Survey Part II: Survey Content, 2011-12 Edition* (*cscs.wested.org/resources/cscs_guidebook_2_content.pdf*).

[1] Crosswalks between all three Cal-SCHLS surveys for the school climate questions are included in *Making Sense of School Climate* (available at californias3.wested.org/tools).

[2] In some instances, the survey is administered on paper.

Core Survey (Section A)

All staff answer the questions in the first part of the survey, which provides background information about the characteristics of the staff respondents who completed the survey and assesses the following main domains:

- How **supportive and inviting** the learning and working environment is in general;
- School **norms and standards** that promote achievement, including the rigor and relevance of instruction, and a shared sense of responsibility for school improvement;
- **Staff supports, professional respect, and collegiality** within the working environment, factors that surveys of California teachers have shown to be key to teacher retention;
- Staff and student **safety**;
- **Student developmental supports** in the school environment—caring staff/student relationships, high expectations, and opportunities for meaningful participation and decision-making—that resilience research has linked to school and life success;
- **Equity**, respect, and cultural sensitivity, which are particularly germane for closing the achievement gap;
- Student **behaviors that facilitate learning**, including the degree to which students are ready and motivated to learn and are well-behaved;
- The level of **problems the school experiences** that are related to fourteen student behaviors or conditions (e.g., truancy, violence, bullying, substance use, mental health, and physical health);
- The nature, communication, and enforcement of rules and policies related to **discipline**; and
- Staff **professional development** needs.

In 2013-14, the same questions asked of students in the CHKS School Climate Module were added to the CSCS so that staff and student results can be compared. These results are reported in Section 6 (Learning Conditions). The questions provide additional data on five key constructs.

- Supports for Learning
- Discipline and Order
- Social, Emotional, and Behavioral Supports
- Positive Peer Relationships (anti-bullying related)
- Respect for Diversity

Learning Supports Module

The **Learning Supports Module** consists of 22 questions that are answered only by staff who provide services or instruction related to health, prevention, discipline, safety, or counseling. These questions assess a school's programs, policies, supports, and services that address nonacademic barriers to learning and promote healthy youth development. The results can be compared to the level of student need as

indicated by staff perceptions of problems (from the first section of the CSCS) and student report (from the CHKS).

Supplemental Modules

In addition, two supplementary modules are available that districts can elect to add to the survey. For information, call the toll-free Cal-SCHLS Helpline at 888.841.7536.

- The **Special Education Supports Module** consists of 12 questions designed to be answered only by staff who have responsibilities for teaching or providing related support services to students with Individualized Education Programs (IEPs). It provides data to better understand issues involving (1) effectively meeting the needs of students with IEPs, and (2) recruiting and retaining special education staff. Districts can request custom reports that compare CSCS results reported by staff who have special education responsibilities to those reported by other staff.

- The **Military Connected Schools Module** allows schools to gather the views of staff about their schools related to the educational and other needs of students who have parents connected to the military, in order to foster more military-friendly and supportive school climates.

THE REPORT

Results are provided in tables with data from all school levels assessed presented separately. The usual school levels are elementary (grades 1–6), middle (grades 7–8), high (grades 9–12), and nontraditional (ungraded, such as continuation high schools with 16 years being the earliest age of admittance), as appropriate.[3]

The tables are organized into topical sections, as outlined in the Table of Contents. They provide the percentages of staff responding to each response option for each question. Percentages are rounded off to the nearest whole number. Summary tables at the beginning of each section provide a quick overview to key indicators, with a reference to the table where the detailed results can be found.

Supplemental Reports

On request, custom reports can be prepared that disaggregate the survey data and compare the results based on the characteristics of respondents (e.g., race/ethnicity), job responsibilities (e.g., special education compared to general education staff), or based on how staff responded to a particular question (e.g., whether they agreed or disagreed that the school had a supportive and inviting learning environment).

AIDS TO UNDERSTANDING AND USING THE DATA

In addition to the *Guidebook to the California School Climate Survey Part II: Survey Content, 2011-12 Edition* (*cscs.wested.org/resources/cscs_guidebook_2_content.pdf*), there are several other guides, workshops, and other aids to help schools understand and use survey results. Two are particularly important.

- The *CHKS Guidebook to Data Use and Dissemination* (chks.wested.org/using_results) describes a step-by-step process for reviewing, analyzing, and disseminating survey results as part of a data-driven decision-making process for program improvement. Although written for use with

[3]For reporting purposes, K–8 schools are coded as elementary.

student data, the guidelines apply equally as well to staff survey data. Free call-in data use workshops are offered as well.

- The *Workbook for Improving School Climate: Using Your California School Climate Health & Learning Surveys Data* (cscs.wested.org/using_results/publications) helps school communities interpret and use data. Worksheets help users walk through survey findings and identify the needs to be addressed to create supportive school climates, enhance stakeholder engagement, and improve student achievement.

- *Making Sense of School Climate* provides an overview of eight important dimensions of school climate and outlines the items on each of the three Cal-SCHLS surveys that assess constructs in each dimension.

ASSESSING THE DATA

Care must be taken to fully understand the survey; the context within which the data were collected; and the factors that can impact the quality, validity, and generalizability of the results. The following are a few of the key issues that should be kept in mind. A more detailed discussion of these topics can be found in the *CHKS Guidebook to Data Use and Dissemination* (chks.wested.org/using_results).

Representativeness

Among the most important factors affecting the quality of survey results is the level of staff participation. The validity and representativeness of the results will be adversely affected if the staff response rate is lower than 60%. One indication of the survey's representativeness is how accurately the characteristics of the sample (see Section 3) reflect the characteristics of the staff as indicated by personnel records. Even if the response rate is low, the results provide an indication of what those staff who did respond felt about the school and their experiences and behavior. Strategies for increasing participation are discussed below.

Changes Between Surveys

Many factors besides real changes in behavior, attitudes, or experiences among staff may account for changes in results from administration to administration. Changes may be due to differences over time in the characteristics or size of the sample of staff who completed the survey, changes in the questions themselves, or differences between time periods in which the survey was administered.

Data Comparisons

Comparing results to other local, county, and state data provides a broader context with which to assess the local situation. This can help you determine whether local changes are unique or may be part of a broader trend. Ultimately, however, the most fundamental concern should be what the survey results say about your schools and what improvements need to be made. Results from all schools in the state that conducted the CSCS may be downloaded from the CSCS website: cscs.wested.org/reports.

IMPROVING PARTICIPATION

The *CSCS Survey Administration Guidebook* (cscs.wested.org/resources/cscs_guidebook_1_admin.pdf) provides strategies for improving voluntary staff participation. One of the most important is raising

awareness among staff of the value of the survey to the school and the value of staff perceptions to school improvement efforts. To that end, it is important that staff are informed about the results and any school-improvement efforts that are undertaken in response. Staff must perceive that their voices are heard and valued.

NEXT STEPS

Receiving this report is a beginning step in the process of using data to improve school climate. The following describes further actions that you can take.

Request School Reports

If the schools in the district vary significantly in demographics, programs, or other characteristics, consider requesting individual reports for each school (a fee applies).

Compare with Other Data Sources

CSCS results will be enriched if analyzed in the context of data from the CHKS, CSPS, and other sources, particularly in the context of identifying consistent patterns or disconnects that need to be further explored. Other data typically collected in effectiveness studies of school climate include numbers and kinds of discipline referrals, school demographic information, school vandalism costs, and behavioral observations in classrooms.

Discuss with Students and Staff

Discuss the results with both students and staff to explore the meaning of the results in more depth and to obtain their input into how the school might better meet the needs identified. This is especially important because it communicates to staff that you value their input, and it may help improve participation in the next survey. Cal-SCHLS staff can provide information on conducting structured group **Listening to Students** fishbowls designed to explore with students, with staff observers, the meaning of survey results and obtain their input on how to address the needs identified by the survey.

Conduct Additional Analyses of Dataset

The complete dataset is available electronically for additional analysis (there is a small fee for preparation). The dataset enables analyses of patterns in the results, how they are interrelated, and how they vary by different subgroups of staff and across schools within a district.

Add Questions to Your Next Surveys

Determine what additional information is needed from staff to guide school improvement efforts and add questions to your next CSCS or CHKS. Both surveys were designed so that schools can add additional questions to help them conduct a more individualized and comprehensive assessment.

School Climate by Design Action Planning Workshop

Contact your Regional TA Center and request a School Climate by Design workshop to help you review survey results, identify needs, and engage in developing an action plan that uses evidence-based strategies to address these needs. Ongoing coaching in implementing the plan is also available.

ACKNOWLEDGMENTS

The CSCS was developed, and this report was prepared, by WestEd, in collaboration with Duerr Evaluation Resources, under contract from CDE. For more survey information, call the toll-free helpline at 888.841.7536, or visit the website at cscs.wested.org.

Migrant education	50	43		–	–
Special education	80	86		–	–
English language learners	80	86		–	–
None of the above	10	0		–	–

Question A.2: Do you provide services to the following types of students? (Mark All That Apply.)

Notes: Cells are empty if there are less than 5 respondents. Total percentages may exceed 100% for "mark all that apply" items.

Table A3.3

Length of Employment at School

	All %	ES %	MS %	HS %	NT %
Less than 1 year	0	0		–	–
1 to 2 years	0	0		–	–
3 to 5 years	20	29		–	–
6 to 10 years	0	0		–	–
Over 10 years	80	71		–	–

Question A.3: How many years have you worked, in any position, at this school?
Note: Cells are empty if there are less than 5 respondents.

Table A3.4

Overall Length of Employment in Position

	All %	ES %	MS %	HS %	NT %
Less than 1 year	0	0		–	–
1 to 2 years	0	0		–	–
3 to 5 years	0	0		–	–
6 to 10 years	0	0		–	–
Over 10 years	100	100		–	–

Question A.4: How many years have you worked at any school in your current position (e.g., teacher, counselor, administrator, food service)?
Note: Cells are empty if there are less than 5 respondents.

Table A3.5

Race/Ethnicity of Respondents

	All %	ES %	MS %	HS %	NT %
African American (not Hispanic)	0	0		–	–
American Indian or Alaska Native	0	0		–	–
Asian or Pacific Islander	0	0		–	–
White (not Hispanic)	90	86		–	–
Hispanic or Latino/a	0	0		–	–
Other or multi-ethnic	10	14		–	–

Question A.5: What is your race or ethnicity?
Note: Cells are empty if there are less than 5 respondents.

4. Learning and Working Environment

Table A4.1

Summary of Indicators for Positive Learning and Working Environment

This school...	*Percent Strongly Agreeing* All %	ES %	MS %	HS %	NT %	Table
Learning Environment						
Is a supportive and inviting place for students to learn	80	71		–	–	A4.3
Sets high standards for academic performance for all	70	71		–	–	A4.4
Promotes academic success for all students	50	57		–	–	A4.5
Emphasizes helping students academically when they need it	60	71		–	–	A4.6
Emphasizes teaching lessons in ways relevant to students	60	57		–	–	A4.7
Working Environment						
Is a supportive and inviting place for staff to work	60	57		–	–	A4.10
Promotes trust and collegiality among staff	50	43		–	–	A4.13
Promotes participation in school decision making	60	57		–	–	A4.15
Works to minimize paper work	50	57		–	–	A4.16
Provides adequate benefits to support continued employment	50	57		–	–	A4.17
Provides the materials, resources, and training to do job effectively	78	71		–	–	A4.18
Provides relevant paraprofessional training	20	29		–	–	A4.19
Provides the materials, resources, and training to work with special education (IEP) students	44	43		–	–	A4.20
Provides complete state adopted instructional materials for students with IEPs	50	43		–	–	A4.21
Uses objective data in making school improvement decisions	67	71		–	–	A4.9
Safety, Facilities, and Parental Outreach						
Is a safe place for students	60	57		–	–	A4.22
Is a safe place for staff	67	57		–	–	A4.23
Has clean and well-maintained facilities and property	78	71		–	–	A4.24
Is welcoming to and facilitates parent involvement	67	57		–	–	A4.25
Encourages parents to be active partners in educating their child	60	71		–	–	A4.26

Notes: Cells are empty if there are less than 5 respondents.

Table A4.2

Summary of Indicators for Staff Collegiality and Sense of Mission

How many adults at this school...	*Percent Responding "Nearly All Adults"*					Table
	All %	ES %	MS %	HS %	NT %	
Have close professional relationships with one another	50	71		–	–	A4.14
Support and treat each other with respect	50	71		–	–	A4.12
Feel a responsibility to improve the school	50	71		–	–	A4.11
Work hard to ensure a safe and supportive learning environment	60	71		–	–	A4.8

Notes: Cells are empty if there are less than 5 respondents.

Student Learning Environment

Table A4.3

Learning Environment is Supportive and Inviting
